Louise Hay designed the 2 day 'Love Yourself, Heal Your Life®' workshop in the 1980's. This workshop has been a life changing experience for all those who have attended and continues to be a catalyst for self-love and self-discovery!

*How often in our busy lifestyles do we have a chance to take a couple of days just for 'ourselves' in a gorgeous tropical location with a diverse group of like-minded people.....**WELL HERE IT IS!***

Louise's work enhances any modality and works perfectly alongside any and all existing careers. It has been my personal belief that any one and every one could benefit from this amazing work.

It is a transformational workshop originally created by bestselling author Louisa Hay. During the 2 days you will experience fantastic in-depth and full participation training in the methods of Louise Hay including Affirmations ~ Visualizations ~ Inner Child Work ~ Meditation.

This is not a residential course and if you are local you can stay at a nearby venue or friends place or come from home. It does however include the day packages of the Hotel and all course material. The investment is \$775 as per flyer on website. Accommodation can also be booked directly with the Crystalbrook Riley.

THE INVESTMENT

All monies for course \$775 is inclusive of day packages to be paid directly to by 27th September 2024.
